Subject: Bill draft recommendation

Gordon:

Senator Holperin would like to draft legislation to modify the open records/retention law. The legislature is exempt from the retention records law and we would like a bill drafted to bring the legislature under the retention law like other agencies or departments of state government, as requested by a newspaper in our district. Let me know if you have any questions or need any further background on this issue before drafting. Thanks for your assistance in advance.

State of Wisconsin
2011 - 2012 LEGISLATURE

LRB-2773/7
JTK...

Feb 9/30

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

Gen

1 AN ACT ...; **relating to:** management and preservation of records and
2 correspondence of members of the legislature.

Analysis by the Legislative Reference Bureau

X
state
Currently, the public records board supervises the state's public records management and preservation program and may set retention schedules for public records. Except as specifically authorized by law, no public record may be disposed of without the approval of the board. With the approval of the board and compliance with statutory standards, a state officer or agency may transfer public records to microfilm format, and subject to standards prescribed in rules promulgated by the Department of Administration, may transfer public records to optical disk or electronic format. If applicable standards for transfer of the records are adhered to, records reproductions in the authorized formats have the same status for evidentiary purposes as the original records. In lieu of disposal, the board may transfer selected public records to the historical society for preservation. Currently, none of these records management and preservation procedures apply to records and correspondence of members of the legislature.

This bill deletes the current exception for records and correspondence of members of the legislature, thereby making ~~those~~ records and correspondence subject to the public records management and preservation program.
